

LES MEILLEURS VERRES SOLAIRES  
DEPUIS 1957

NEW COLLECTION

# VUARNET **ice**

**INSPIRATION** - Drawing on experience spanning 60 years serving mountain professionals, Vuarnet introduce the most recent creation of its manufacture: the Vuarnet Ice. When sport and style meet at the summit.

This model mixes technical features of our iconic Glacier with an urban aesthetics. Vuarnet ice collection is designed for those who are seeking solar equipment for exploring under any light conditions, including the most extreme ones.

**PRODUCT** - Completion of a two-year development Vuarnet ice combines the state-of-the-art material with the most protective Vuarnet mineral lenses for or a sleek and distinctly trendy design.

The Vuarnet ice collection is compose of 8 made in France models, dedicated to travel, run, ride, sail, drive, fly or simply to look at the world under the light.

**VUARNET TINTED LENSES** - Vuarnet designs and manufactures its own tinted glass lenses at its production facility in Meaux, near Paris, France. All Vuarnet's tinted lenses are developed to the same exacting standards, for daily use or for intense lighting conditions. The lenses offer the very best optical precision and maximum protection, are extremely hard-wearing and deliver the ultimate in visual comfort.
